STATEMENT OF COMPLIANCE

It is Imperial's intent to uphold integrity through ethical and legal conduct in the operation of our business, the provision of insurance coverage for health care and prescription drug services, and the participation in government health care programs. Imperial continually strives to earn and maintain a reputation for compliant, lawful and ethical behavior in the treatment of our customers, and in our relations with health insurance purchasers and health care providers.

As part of Imperial's commitment to legal conduct, we have adopted standards to protect against unlawful activity. Among these are the provisions of Imperial's Code of Conduct, Compliance Program Description and Compliance Program policies and procedures that elaborate on areas that may be susceptible to legal liability. The Compliance Program outlines Imperial's commitment to comply with all applicable state and federal regulations, as well as set out a broader commitment to ethical and legal behavior for all Employees and staff who provide services in support of the Part C and Part D programs. Each Employee must make a personal commitment to adhere to Imperial's Compliance Program. Imperial does not condone questionable or criminal conduct by Employees, other entities or individuals with whom we do business.

Our reputation can be severely damaged, and Imperial significantly sanctioned if even one Employee violates the law. Concerns about illegal conduct or potential fraud committed by Employees or those we interact with outside of Imperial should always be reported. All reported

incidents will always be taken seriously, fully investigated and followed through with appropriate corrective action. Imperial expects all Employees to conform to the highest ethical and legal standards. If you have a concern about what is proper legal conduct for you or anyone else or you would like to report fraud or illegal conduct, promptly contact your supervisor, department manager or the 24-Hour toll- free Compliance Fraud, Waste and Abuse (FWA) Hotline anonymously at 1-888-708-5377. You can also fax to FWA Fax at 626-380-9054 or email compliancefwa@imperialhealthplan.com.

Every day, we must preserve and strengthen our commitment to total excellence in the operation of our Company, including acting in a manner that maintains the standards of legal and ethical conduct that we have adopted as part of our Compliance Program.

CODE OF CONDUCT

The Code of Conduct is designed to provide a general framework to promote ethical and legal behavior. Imperial expects its Employees to act within the highest ethical and legal standards, and to demonstrate a commitment to quality and dedication to deliver excellent service. Imperial Employees and contractors will at all times act professionally and have the appropriate qualifications to perform job duties and perform those duties in a manner consistent with its professional standards. Employees will act honestly and, in good faith, strive for excellence.

The Code of Conduct applies to board members, Employees and contractors of all health plans offered or administered by Imperial as well as its contractors (i.e., First Tier, Downstream and Related Entities (FDRs)).

All new board members, Employees and contractors will receive and review the Imperial Code of Conduct during orientation. The Code will also be reviewed annually by all board members and Employees during general compliance training.

The Code of Conduct articulates Imperial's commitment to follow applicable federal and state laws and regulations,. See *Code of Conduct*.

COMPLIANCE PROGRAM

Imperial's Compliance Program applies to Medicare Parts C and D. As such, Imperial has incorporated the Office of Inspector General's Program Guidance for Medicare Advantage (MA) and Part D Organizations offering coordinated care plans and the seven elements for an effective Compliance Program. A Compliance Program is one of the most significant tools an organization can use to promote regulatory compliance and legal conduct. An effective Compliance Program can prevent, detect and help resolve non-compliant and illegal conduct, including fraud, whether committed by Employees or by those with whom Employees interact outside of the Company in the course of Imperial's business.

An effective Compliance Program, as defined by the Code of Federal Regulations, must include the following seven elements:

1. Written policies, procedures and standards of conduct that show a commitment to federal and state regulatory adherence, including an explanation of investigation techniques;
2. A compliance officer and compliance committee that are accountable to senior management and the Imperial's Board of Directors (hereinafter "the Board");
3. An effective training and education program;
4. Effective lines of communication which are both confidential and accessible to

- Employees, members, physicians and other interested parties;
5. Enforcement of standards through well publicized disciplinary standards,
 6. Procedures for internal and external auditing and monitoring and identification of compliance risks; and
 7. Procedures and systems for responding promptly to compliance issues.

To be effective, a compliance program must include a substantial commitment from the entire Company. At Imperial this means all Employees at all levels. The Compliance Program and Work Plans are reviewed and approved on an annual basis by the Board of Directors.

Goals of the Compliance Program

Imperial's Compliance Program has the potential of enhancing the quality, productivity and efficiency of our operations while significantly reducing the probability of improper conduct and legal liability, including but not limited to reducing fraud and abuse. Imperial's Compliance Program strives to improve operational quality by fulfilling four primary goals:

- **Articulate and Demonstrate** Imperial's Commitment to Regulatory Compliance and Legal and Ethical Conduct.
- **Increase the Likelihood** of Preventing, Identifying and Correcting Non-Compliant or Illegal Conduct.
- **Formulate and Utilize** Internal Controls to Promote Compliance with State and Federal Laws and Regulations as well as Organizational Policies and Procedures.
- **Create an Environment** that Encourages Employees to Recognize and Resolve Potential Compliance Problems.

Achieving Compliance Goals

The Compliance Program provides general regulatory and legal guidance for all Employees and departments at Imperial with compliance through annual review of all health plan policies and procedures. These policies and procedures provide specific regulatory and legal standards and recommendations for use in day-to-day health plan operations. Imperial achieves its compliance goals and demonstrates its commitment to proper regulatory and legal conduct through implementation of these policies and procedures and ongoing monitoring and training. Imperial requires all Employees to comply with all applicable statutes and regulations when performing their job responsibilities or acting on behalf of Imperial. The Compliance Program outlines Imperial's expectations for regulatory compliance and legal conduct, including procedures for preventing and reporting fraud and improper conduct, including reviewing any conflicts of interests that may occur at the management level.

The Participation of Every Employee Is Required

If Imperial is going to achieve the goals of its Compliance Program, every Employee must participate and follow this Compliance Program. Concerns and questions regarding participation should be directed to the Imperial Compliance Department.

The CC's objectives are to enhance compliance with federal and state regulations, provide an educational forum for new regulatory information, offer assistance with corrective actions that may be required, and discuss any operational barriers that may interfere with compliance. The CC also provides a forum for discussion of legislation, state and federal regulation and guideline changes that may require advocacy with the government.

The Compliance Officer meets monthly, or more often as needed, with the executive management of FDRs and Imperial to further discuss any compliance issues that may arise during the regular CC meeting. Additionally, the Compliance Officer meets with and provides the Board of Directors with a compliance report quarterly to ensure the governing body is aware of any potential compliance issues or notifications from a regulatory agency, receives regular compliance and required privacy/confidentiality training and are well versed with the Compliance Program, work plan and operational goals of the organization. See Compliance Policy and Procedure, *Compliance Committee Charter*.

AUDIT & MONITORING

Auditing and Monitoring

Imperial uses regular risk assessments, as defined in Compliance Policy and Procedure, *Risk Assessment*, to provide information for the auditing and monitoring program. Elements with the highest risk and/or elements with failures that cause a large impact are included in the monitoring or auditing work plans for the year.

Functional areas report monthly to the Compliance Department and/ or the Compliance Department has direct access to operational documents/systems/logs to monitor data to ensure compliance with regulatory requirements. This process gives instant insight to any gaps in processes and allows immediate corrective action. Based on the routine reporting, CAPs or corrective improvement plans can be initiated to correct any non-compliant processes.

In addition to regular monitoring, the Compliance Department conducts routine audits of functional areas and spot audits of operational areas to ensure the information being reported is accurate. The Compliance Audit and Monitoring Work Plans outline the audit and monitoring

activity and scope. See Compliance Program Policy and Procedure, ***Internal Auditing and Monitoring***.

Imperial also identifies and assesses FDRs in accordance with Compliance Policy and Procedure, ***FDR Designation and Pre-Delegation Assessment*** and performs ongoing oversight as outlined in Compliance Policy and Procedure, ***Monitoring and Auditing of FDRs***.

This includes participating in fraudulent activities committed by another Employee, a member, a healthcare provider or other vendor, a manager or supervisor. All Employees are responsible for their own actions. Supervisors and managers are not authorized to direct Employees to participate in fraudulent activities or conduct as part of their job or direct Employees to perform their job-related responsibilities in a fraudulent manner. If an Employee is directed or authorized to act in an unethical or fraudulent manner, the Employee should promptly report this information to the Compliance Officer. Participation in fraudulent conduct will result in disciplinary action against the Employee who commits fraud and anyone who directs the fraudulent activity, up to and including termination of Employment under applicable Imperial Human Resources policies and guidelines.

Reporting Fraud and Improper Conduct

As part of Imperial's effort to provide a supportive work environment, Imperial encourages Employees to work within their Department by requiring that they immediately report any suspected fraudulent, non-compliant, illegal, dishonest, or unethical conduct directly to their supervisor, *and to* the Imperial Compliance Department. Failure to report suspected fraud or improper conduct may lead to disciplinary action.

The following information, when applicable, is required when anyone reports any suspected fraudulent, non-compliant, illegal, dishonest, or unethical conduct:

2. Member Claim Number;
3. Date(s) of Service;
4. Description of Service/Item;

Employees are encouraged to report all instances of non-compliance with any related standard when that Employee has a reasonable and good-faith belief that such non-compliance exists.

FDRs

As required by federal law, FDRs who handle any operational functions for Imperial are required to complete Imperial's training or provide a copy of their established compliance, FWA, Medicare, and HIPAA/Privacy training upon execution of the agreement and annually thereafter. The Compliance Department will review training to ensure it meets standards of the appropriate regulatory agency and the standards established by Imperial. Upon completion of the FDRs' internal training, a copy of the training and employee sign in sheets (or comparable documentation) will be provided to the Compliance Department to store within the Document Library for future reference.

The Compliance Department will ensure that the entity has appropriate policies and procedures in place to minimize, detect, investigate, and report any potential FWA or privacy issues and provides regular training for their staff on these issues as regulations change.

Full Investigation of Reported Suspected Fraud and Improper Conduct

All reported suspected fraud and improper conduct is investigated promptly and thoroughly by the Compliance Department. The Compliance Officer, or his or her designee, coordinates investigations of suspected fraud and improper conduct.

Depending on the type of reported activity, contact is made with all appropriate parties, such as: regulatory or law enforcement agencies, department supervisors and directors, executive staff, the Imperial outside counsel, and the Human Resources Department.

Every effort is made to maintain the confidentiality of reports of potential violations and concerns about fraudulent, illegal or non-compliant behavior, however, there may be a point where the identity of the reporting Employee may become known or may have to be revealed in the course of the investigation or to take corrective action. See Compliance Policy and Procedure, *Compliance Issues Review*.

HIPAA

HIPAA is a regulatory guideline that exists to safeguard an individual's PHI. Employees are made aware that not only is it inappropriate, but also unlawful to release certain information without proper authorization. Such confidential information frequently includes, but is not limited to:

- A prior-authorization request for specific medical services or prescription medication;
- A claim showing receipt of specific medical services;
- Medical records showing health history; or
- Other personal member information.

Employees are expected to maintain the confidentiality of such information. Confidential information should never be repeated to any party outside Imperial except in the course of the legitimate administration of the member's health care coverage. Confidential information should only be discussed with other Employees when such discussion is necessary for the administration of a member's health care coverage.

If any questions arise regarding the treatment, usage or disclosure of confidential information, Employees may consult with a supervisor, the Imperial Compliance Department, or Compliance Officer. When in doubt about releasing information, Employees should always ask their supervisor first. Staff should ask their supervisor for department specific confidentiality policies and procedures.

The *Standards for Privacy of Individually Identifiable Health Information* (the Privacy Rule) was disseminated by the DHHS. Detailed guidance on specific requirements is included in the regulation. The Privacy Rule, enacted on August 21, 1996, provided the first comprehensive federal protection for the privacy of health information.

All segments of the health care industry have expressed their support for enhanced patient privacy in the health care system. At the same time, DHHS and most parties agree that privacy protections must not interfere with a patient's access to or the quality of health care delivery. The HIPAA Privacy Rule established a federal requirement that doctors, hospitals, or other health care providers obtain a patient's written consent before disclosing the patient's personal health information for any activity other than treatment, payment, or health care operations.

Today, many health care providers, for professional or ethical reasons, routinely obtain a patient's consent for disclosure of information to insurance companies or for other purposes. One of the main general provisions is that patient consent is required before a covered health care provider that has a direct treatment relationship with the patient may use or disclose PHI.

Most health plans and health care providers covered by the new rule were mandated to comply with the new requirements by April 2003. For the first time, the Privacy Rule creates national standards to protect individuals' medical records and other personal health information. Generally, the rule:

- Gives patients more control over their health information;
- Sets boundaries on the use and release of health records;
- Establishes appropriate safeguards that health care providers and others must achieve to protect the privacy of health information;
- Holds violators accountable, with civil and criminal penalties that can be imposed if they violate patients' privacy rights; and
- Strikes a balance when public responsibility requires disclosure of some forms of data – for example, to protect public health.

Imperial recognizes its responsibility to protect the privacy of members, providers, and Employees. Much of the information we review, use, or disclose is protected by the Privacy Act of 1974 and other federal and state laws, or is of a proprietary nature. Consequently, this information requires the highest degree of confidentiality. Any unauthorized disclosure of personal information, medical or otherwise, regarding any member, Employee or business practice is prohibited. Employees are responsible for ensuring that this information is stored in secure systems. Authorized users of this information are responsible for preventing unauthorized access to secured information systems.

Trade secrets are considered any information that is not available to the general public, or in some instances, to all Employees. This information has competitive value to the Company, and can be extremely damaging in the hands of outside vendors or individuals. It is the duty of all Employees to maintain the confidentiality of this information. This includes all information in written, electronic, or verbal form (e.g., the electronic mail system (e-mail), claims and membership systems, documents or information discussed at meetings). See *HIPAA Policies and Procedures*.

Health Information Technology for Economic and Clinical Health Act (HITECH)

HITECH is Title XIII of the American Recovery and Reinvestment Act also known as ‘ARRA’ or the ‘Stimulus Bill’ signed into law on February 17, 2009. HITECH addresses the promotion of Healthcare Information Technology and expands the HIPAA Privacy and Security requirements to ensure the security of electronic PHI (ePHI). As of February 2009, all covered entities and business associates must ensure compliance with HITECH and that ePHI remains private and secure.

The HITECH Act includes some significant changes to HIPAA’s standards regarding the use and disclosure of PHI and contains new notification requirements in the event of a breach of unsecured PHI. The HITECH Act also increases the consequences of privacy and security breaches by raising the fines for non-compliance and granting State Attorneys General the authority to enforce HIPAA.

Compliance will work with the Information Security Director as it relates to ePHI as well as breaches.

DISCIPLINARY GUIDELINES

Violations must be addressed through disciplinary standards and must be consistent and fair. Egregious violations – issues that are due to willful or malicious neglect of duties – are to be reported to the Compliance Officer immediately and may result in termination after appropriate consultation with Human Resources and/or the Compliance Committee. If the Compliance Department becomes aware of any violation where the violation was known and appropriate disciplinary action was not taken or reported, this constitutes a serious violation and management is subject to disciplinary action as well. There is no level of Employee that is not subject to this policy, including Company officers.

When determining appropriate disciplinary action, the following will be considered:

- The nature of the violations;
- The impact both from a financial aspect as well as the potential for causing harm to the member;
- Whether or not the violation was willful;
- Whether it was self-reported or if there was an attempt to cover up the issue; and
- The extent to which the employee participates in the investigation and resolution.

See Compliance Policy and Procedure, *Disciplinary Action Standards and Guidelines*.
